Parents' Testimonial

Aqeela's Parents

SMP Hilaris menurut Saya sebagai orang tua siswa mendapatkan lebih tentang pengetahuan dibidang mata pelajaran tidak hanya teori yang ada dibuku tapi yang ada disekelilingnya dari ilmu sains hingga ilmu sosial dan pelajaran yang lainnya.

Dan kepribadian anak saya terlihat lebih percaya diri, lebih peduli terhadap keluarga dan lingkungan sekelilingnya.

Karena awalnya pilihan SMP Hilaris agar mendapatkan bahasa inggris yang lebih baik dan alhamdulillah berkat guru guru yang handal semua pengetahuan anak saya terhadap pelajaran menjadi lebih dari yang saya harapkan.

Hilaris Junior High School

Vision:

Being an English Technology-based Junior High School that achieves excellence in academics strengthened by Entrepreneurship and Leadership skills for global challenges.

Mission:

1. Empowering English & technology to improve the learning quality.
2. Advancing the use of & English technology in all learning activities.
3. Embedding a conducive and dynamic technology and communication culture.

What makes us different?

Today, success in school means how far the students understanding of subjects such as: Science, Maths, Languages , Social Studies and Technology. With our exceptional school, integrated curriculum, National Plus Junior High School is committed to educating not just knowledge, character, leadership but technology so the graduated students will be the leaders in the future.

Ms. Debby's Speech

Graduation is a milestone event to highlight our Hilaris Primary School beloved students' achievements. In the past few years, we have seen the graduates learn hard but fun in order to accomplish their education goals. We are the lucky ones who have had the privilege of helping the students with their educational growth.

Also we have witnessed the parents support them with everything they could do. Every graduate here today has learned hard to make the best version of themselves. They have preserved and worked towards their goals in a determined way.

Each of students has grown in a way that we should be proud of. They arrive in this graduation as a skilled and valuable group and ready to tackle the next set of challenges ahead, as one of a result from the variety of schools activities and a rounded education we have given to them. Furthermore, let me thank all the parents for their willingness to support the school.

Fundraising activities, active participation, and positive feedback are hugely advantageous and appreciated by the staff in order to develop our school for the sake of our students.

The last but not least, I also want to thank the dedicated teachers at the school. They do not seek any praise, however, their skill and dedication to educate the students is enormous. The future holds many challenges and successes for all of students. Each of them will have their own unique opportunities to grow.

I am confident they will rise and strive in every occasion.

Let me wish you all the best for the future. Congratulation beloved students & parents ☐☐

Founder of LKM-Hilaris
Education Institution

Dr. Debby Andriany, MM.

Mr. Yusuf's Speech

Congratulations for our beloved students, you have finished your study in Junior High Level in Hilaris School, today is the precious moment for teachers, parents also Hilaris Junior High Students academic year 2020/ 2021.

As the teachers, we are very happy and proud of your achievement. We are the witnesses of your struggles and processes till you reach this point. The teachers' commands and instructions are to set you be a whole personal that has a broad knowledge, a noble character and skillfull person which is needed to face the future.

Also we proudly get your parents' mandate and trust to educate, to build and colour a part of your journey, and now is the time for us to give back this mandate to your parents, we have tried to give the best education for Hilaris Junior High students. We are sure the students that graduate today will be an excellent students who are ready for the next educational level.

The last we want to ask you to share your knowledge and give a good influence to your surrounding that you have got since in Hilaris Junior High, keep your personality, parents also Alma mater Hilaris Junior High School well.

Congratulations on your graduation students, may you reach the best achievement and be the best generation in the future.

Hilaris Junior High School Principal

Mr. Yusuf

MPLS IT-BASED TRAINING.

LDKS PROGRAM IN PASIR MUKTI BOGOR.

FIELD TRIP TO BANDUNG SCIENCE CENTRE

The best experience I ever had in Hilaris school is meeting kind and supportive friends. There were a lot of special and fun memories. The teachers were also very cool and kind. I will miss the times during studying at Hilaris School because there were a lot of best moments there.

Starting from the moment of MPR where we fought over the food and did not take a shower, the moment of LDKS where Mr Ferdi and Ratu were attacked by a frog and Intan plunged into the mud, the moment of SEP where I almost kicked an Indian in the elevator and fought for water in the restaurant with Keiyan, to the moment of having lunch together and always watched horror movie and many more, these were the best experiences I ever had.

To all my friends, thank you for striving together in

junior high school. I really appreciate your effort. And thank you for accompanying me all this time. But, sadly, our junior high school time is over now. There was a mixing feeling between sad, happy and sour when I realized that we would not be together in a classroom anymore. I also apologize for all my mistakes that might still be disturbing. Later, when we meet again, please don't be arrogant. Let's gather as alumni someday.

And to my beloved and respected teachers, thank you for both academic and non-academic knowledge such as life lessons and motivation you gave. All of that really helped us a lot until we all graduated from junior high school with satisfactory grades.

Honestly, I know teaching must be difficult and not easy. Thank you for your efforts and love to

Hilaris Junior High School Moments

FIRE FIGHTING SIMULATION WITH DAMKAR TANGERANG

CAMBRIDGE ASSESSMENT ENGLISH.

strengthen our character. I really love all of you. We apologize if we often make you sad or maybe make you disappointed to, so that we can become better students and persons.

Thank you for all the memories and the journey. I believe that the journey is still going on, don't give up on your high school life and beyond, and please always stay healthy!

Nata

The most interesting experience while studying at Hilaris School was when we were in 7th grade meeting for the first time and it was really an awkward moment back then.

When we wanted to go to Malaysia, we were given

1 room for 2 people and there I was with my junior who was very funny and he always made me laugh. At first, it was a little bit awkward, but not as much as when I was in the 7th grade. And when we were buying souvenirs there, we separated because there were friends who wanted to buy things for their families and there, I bought necklaces for my family.

And when we have an event to Bandung Science Centre, my team, Igor and I made videos to upload to YouTube. When we came home from the Bandung Science Centre, we went back to school and we were given some times to edit the videos that we had made. After that we gave it to the teacher and we watched together in class.

The most exciting moment in 8th grade was the LDK. That was because we could get to know each

Hilaris Junior High School Moments

SEP AT MATIC MALAYSIA

SEP SEAT IN AT GEMS INTERNATIONAL SCHOOL MALAYSIA

SEP CHECK IN AT SOEKARNO HATTA AIRPORT

other better and can be more independent than before. At night, there was a tense moment when Mr. Ferdi got angry. And when it happened, suddenly it rained heavily. Our leader had to close the tent that had not been closed at that time.

We gave them a jacket so they could go back to the tent and closed it so that the things in the tent did not get wet. The funniest thing was when we were together and there were friends who were praying, suddenly a frog jumped in front of Ratu. We all screamed because the frog was getting closer. When we went home, our parents were at school picking us up.

Kesan: Saya sangat senang bisa menjadi siswa SMP Hilaris, guru-guru nya sangat seru dan juga sabar.

POKOKNYA SERU GUYS!! MANTAP-!!

Class Leader & Vice Class Leader

In this 9th grade, I also officiated as a class leader and my vice leader was Keivan. If there was something that I could not handle, he would kindly help me. And would say thank you very much for being very helpful to me. My job as class leader was helping the homeroom teacher to convey to my friends what should we do. when there was something went wrong I would be the one who took in charge after the homeroom teacher. There must be ups and downs as class leader. But, if I enjoyed doing it, there's definitely no problem that I had to worry about. During the past 3 years, I was really happy to have friends like them. They had different characteristics, so it's fun, especially the humor. Basically, I want to thank you guys very much because we have been able to survive and fight together until now. Thank you for all the memories. I will definitely remember.

Ratu,
Class Leader

In this 9th grade, I officiated as the vice class leader while the leader was Ratu. Being vice class leader was not that hard. But, because the teaching and learning activity was online, it was a little bit difficult to manage them to join zoom meeting. Sometimes, from 14 students, only 5 to 10 who were willing to join zoom meeting. As their class vice class leader, I mostly took care of internal matters. For example, when there were students who quarrel with each other. I was the one who took care of them to solved their problems. And of course, finally they got better and became good friends again because of me taking care of them. I was very happy being together with them, playing together, learning together, going through ups and downs together, and other positive things together. Thank you, 9th grader.

Quotes = "we're just having fun, but we don't realize we're making memories together."

Keivan,
Vice Class Leader

WE ARE 1ST INCREDIBLE

Hi everyone, I am Joslyne Aprilla D. I attended Hilaris School and I have a story, an interesting experience at Hilaris School. I went to Hilaris School and I had many kind and friendly friends, and the teachers there were also kind and fun as well.

In my opinion, the most exciting and interesting experience was during SEP to Malaysia, where we were taught to be more independent, and that was the most memorable experience for me. And the most exciting experience was when we were LDK, where we were taught to be brave and independent, and I keep many beautiful memories when I attended Hilaris School.

Thank you.
(Joslyne)

The ninth grade was a place to share joys and sorrows. Every time there was joy, there must be sadness. Because, yes, in this class was full of unique students but we did not compare each other. They were, indeed, noisy but that makes the atmosphere in the class more fun. Of course, even if a student was absent, the atmosphere of the class became quieter because there were only 14 of us in the classroom.

If there was a problem, we were able to solve it quickly and that was the greatness of the ninth grade. In Hilaris school, we also had many events such as SEP, field trips, etc. We gathered not only in the school events, but also other events such as having birthday party, watching movies, having lunch together and so on.

(Keivan)

I am Ratu. This is my experience for 3 years at Hilaris Middle School. It might sound strange if I say that there had been no interesting things over the past 3 years because there were so many experiences that I could not forget. When I was in grade 8, there was an LDK activity at my school. This was really fun, hehe, but there were some stressful things as well. Yes, it was our fault because we did not follow what they said.

There were a lot of ups and downs that we had been through together for these 3 years. Sometimes, we might have conflicts but it was quickly resolved. And no matter how small or big the problem was, it would be covered by our closeness, especially if we had been joking together, we would definitely forget everything.

My school was different from others. there were only 14 students in one class. Maybe for other people it was

strange, but don't get me wrong, because the fewer students in the classroom the closer we were. And we did not see the difference among us as well. But, unfortunately in the ninth grade, we lacked experience because we could not meet directly. We had to do virtual learning. Meeting teachers and friends were also by application called zoom. Even some events were also less exciting because we had to do it y virtual meeting.

(Ratu)

Before I start, I want to say thank you to the teachers who have taught me for the past 3 years. I also want to apologize if I have made a mistake. Honestly, I never thought that my middle school years were full of joys and sorrows which gave me many useful lessons for the future.

Being surrounded by 13 friends every day for 3 years was not easy. There were lots of fights and lots of jokes that I still miss hehehe. Well, because of the pandemic, we got online classes for about a year. This made the atmosphere awkward when we met again for the first time. But don't worry, because "The 1st Incredible" is the best when it comes to breaking things up!!.

I feel very grateful to be able to meet my friends because they were the ones who made my middle

school days really fun and full of laughter. The moment that I will never forget was when we went to Malaysia for the student exchange program (SEP), can you imagine? When we were at the 7th grade, we had been traveling abroad with friends, isn't that cool?! One more moment was on graduation day. At first, we were all really excited even though we already knew we would definitely graduate hahaha, and it's true, we all graduated. Thank you for the sweet and sour journey guys! See you on top <3

Quotes : "A Journey of a thousand miles begins with a single step"

(Kinaya)

My class was the funniest, the noisiest, the most excited, and just the best of everything. And maybe our class was one of the most loved and known by the teachers hehehe.

I had experienced many ups and downs while studying here. At the beginning of 7th grade, I didn't have any close friends, even when we went to Malaysia to do the Student Exchange Program. When the others sat with their partners on the bus, I sat alone. Then when we entered the 8th grade there was a friendship conflict. It was indeed a natural conflict for us who were still teenagers. But, because of that conflict I got close

friends.

People say that 8th grade was the most exciting time but maybe not for us. When we were in the second semester of the 8th grade, we had to study online through Zoom application. I thought it only lasted 2 weeks, but I was wrong. Even until we graduated, we did a virtual graduation, the planned farewell event was cancelled due to the Covid-19 pandemic. Oh, that's so sad...

Oh yeah, we also had a class name, you know... The name was the 1st Incredible which mean "An extraordinary first generation." Besides being extraordinary, we were also being the generation that the most missed, hehehe. When we were together, the voices of 14 of us felt like one village. The teachers were also cool and friendly as well.

That's my experience while studying at Hilaris Junior High School, I want to thank the teachers who have taught us with great patience and thanks for 3 years my friend.... see you!! <3

(Alexa)

I loved going to school at Hilaris because I had lots of friends and teachers who were all cool. There were also many unique memories that I got at Hilaris, such as getting friends from paint, playing games together and many more.

Our class was really solid. When there was someone who was sad, everyone tried to cheer him/her up. We went through the happiness and sadness together. It's definitely really solid anyway.

But I could not believe it has been 3 years since I went to Hilaris school. I have been through the ups and downs at this school. I faced many things tarting from big to small difficulties here. But, I was very grateful because I had friends to ease my problems as well.

This school has been a witness to our excitement. But, the excitement has now become a memory that feels like it happened yesterday. Indeed, there is no meeting without parting. Hopefully we could meet again in the future. Good luck to everyone.

Quote: Parting is sad but separation is also not the end of everything

(Aqeela)

Congratulations for all of us in our 2021 graduation of Hilaris junior high school. Thank you so much to all beloved teachers for teaching me and see you in Hilaris Senior High School.

I was so happy to study here because we did not always study with text book but also get many experiences for my next future lessons as life skills. Thank you so much.

(Darren)

1st Incredible!

I am Nadhira, this is my experience for 3 years at Hilaris Junior High School. During these 3 years, there were so many experiences that I can't forget. I also was able to improvise more with myself as I was originally an introvert person who is now an extrovert.

One of experiences that I can't forget is when I was in 7th grade. There was an SEP event at my school and it was really fun. We could see some schools there and how they learned. And of course, there were strange and exciting events that we went through. And when we were in 8th grade, we had LDK activities and I think this was one of the most exciting and unforgettable activities for me. But, there were also something stressful and that happened when we did not follow what our teacher said.

And even the ups and downs we've been through together for these 3 years, and maybe we did have conflicts, but were quickly resolve the problem, no matter how small or big it was, because of our closeness, especially when we were joking.

There were only 14 students in the class, and some people might see it normal and others might see it quite weird. But unfortunately, the experience in grade 9 was different from the experience in the previous year due to covid 19. I could not get new experiences in grade 9 because our study time was limited.

During the 3 years together, I was very happy because I had friends like them which had different characteristic and behaviours that made it more fun. And at the end, I would like to thank all of you, especially to the teachers who were willing to share experiences and fun memories with me during studying at Hilaris JuniorHigh School.

(Nadhira)

During studying at Hilaris school, I got a good and exciting learning experience from school programs. I also got many experiences for my future life not only from the friendship but also from teachers.

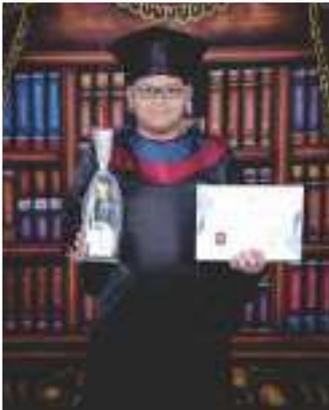

One of the experience I could not forget is the SEP Malaysia program (Student exchange program) that was a very exciting and valuable experience because from this program I could see the school programs, new places, new individuals and new cultures there.

BEST STUDENT

Gregorio Hansel Prihartono

The day when our scores got announced was easily the most exciting and anxious day of our lives. Everybody was hoping for the best knowing that if they were to fail, it would be incredibly devastating. Once we recieved our scores, we were filled with joy. Everybody passed! Looks like our efforts weren't in vain.

Eventhough we were finally leaving highschool, the feeling of loss never went away. Since, we cherish the moments we had very deeply. Everyone was discussing on which school to go to and what their dream jobs were. For example, being a doctor, a scientist, or even a pilot. Though I was quite aware of the fact that we will experience a change within our personality as time goes on.

Like the saying goes, "School is the best time for your life". You'll laugh everyday with your friends, you'll make best friends, you'll learn a lot more about yourself, you'll get the chance to learn more diverse things such as dancing, and much more. Thank you everyone! :D

CONGRATULATIONS ON GRADUATING
FROM JUNIOR HIGH SCHOOL.
AS A STUDENT, YOU STILL HAVE A
LONG WAY TO GO AND TO ACHIEVE.
BEST OF LUCK FOR ALL YOUR
FUTURE ENDEAVORS!
