- Keyra's Parents

Hilaris School adalah salah satu sekolah yang menurut saya dapat mewakili intelegensia dan kreativitas anak saya. Hilaris school menciptakan dan membangun pola pikir anak saya sehingga bisa menjadi salah satu anak yang selangkah lebih maju dari teman-temannya yang lain yang bersekolah di sekolah lain.

pesan:

1. Hilaris school agar terus meningkatkan kurikulum akademik bagi siswa sehingga siswa itu bisa menjadi lebih maju.
2. Diharapkan Hilaris school bisa menjadi suatu sekolah yang unggul baik lokal, regional, maupun internasional.

## RAYSA MAHARANI DEWI

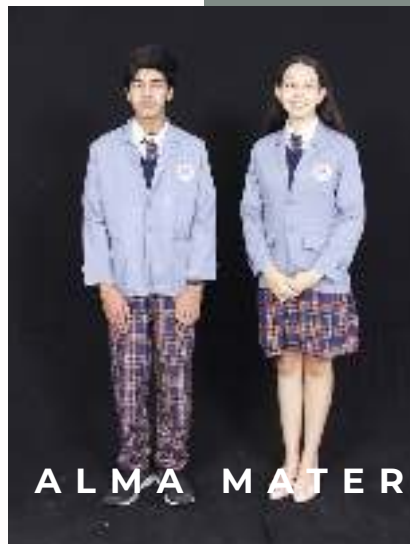

To be honest, it was really tough for me to go through lots of things here at school. Such as passing exams, doing lots of homework, and think about my scores along the years. But once we put enough effort I'm sure we'll be able to pass. And yeah, it turns out that my effort weren't in vain.

It's such an honor to be chosen as a best student, I've never really thought I'd be chosen because I do still have a few flaws. But I believe I got putted in this position because all of the teachers guidance. They've guide me patiently into a good student so that I could be the student I am now.

So I would like to say a big thank you to all the teachers for teaching me patiently through all these years. And I would like to say thank you as well to all my friends for always making my day everyday at school. I hope we all may choose the right path leading to a good future. See you all & thank you :D

As long as I study In Hilaris, many things happen. I have such a great days there, with all of my friends and teachers who understand us. As a student who have studied there since I was a playgroup, of course I know all about Hilaris. And the thing I understand the most is about the English, they really taught us English really well. And since I entered junior high school, I know all about IT program. Also, all of my friends are really fun, no one is demeaning or belittling.
